Re: Newest LG & E Rate Increase Request

Dear Sir or Madam:

I am vehemently opposed to the approval for any new rate increases for LG&E. Given the current state of the economy in Kentucky & the United States, it is unconscionable for LG&E even to suggest a need for these increases. The regular and continued rate for these requests suggests that LG&E believes its clients to be ignorant and without power to block these requests. It is time for all Kentuckians and all Americans to say "enough" as it relates to big business and profits, especially businesses involved in the use of natural resources. I was employed in the financial sector for thirty-five years and experienced firsthand the greed of industry at the sacrifice of humankind. Please examine your own consciences as you review this request from LG&E. Thanks for your consideration.

Sincerely,

  
Joyce Young
